EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Walter W. Kamstein on 12/06/2005.

The application has been amended as follows:

In the Specification:

Replace the title of invention with – A METHOD OF FABRICATING A MANDREL FOR ELECTROMATION OF AN ORIFICE PLATE --.

In the Claims:

Claims 22-29 have been cancelled.

Reasons for Allowance:

The following is an examiner's statement of reasons for allowance: the prior art does not teach all of the limitations of the claimed invention including:

- removing surface regions of the substrate disposed generally between the mask elements to create a base having a base surface and a plurality of pillars extending from the base surface according to the array of mask elements, each pillar having a perimeter defined by an

orthogonal projection of one of the mask elements onto the substrate.

Accordingly, claims 1-19 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
